FOSTERING A FERRET

As ferrets come in we need people to step forward and offer temporary homes for these animals. Become part of our foster care program and you could be the difference between life and death for ferrets. Most of the ferrets we get in are perfectly healthy and happy, but have been surrendered us for various reasons. These ferrets will need temporary homes to foster them until we can find that perfect home for them! Unfortunately, some animals that are brought into our shelters are too sick, too young, or not socialized enough to be adopted out. They could be excellent pets, however, once they are healthy, socialized, or just plain older. Foster volunteers take these ferrets into their home, providing a safe environment for them to mature, become more socialized, or heal from an existing wound or illness. This can be an incredibly REWARDING experience!

There are many of these ferrets in shelters across the US who are in dire need of someone to love & care for them a little more than a healthy ferret. Some are old, crippled, suffering from permanent illness and/or are blind, deaf, etc.

Do you own or rent? _____ If renting, will your landlord allow ferrets? _____

Have you ever owned or fostered a ferret before? _____ If so, When: _____

How many people live in the home? _____ Children? _____ If so, ages _____

* NOTE: As with all animals, adult supervision is recommended when small children are present.

Do you have any other pets? _____ If so, explain _____

Do you have a cage ready for a ferret? _____ Where will the cage be kept in your home? _____

Please attach pictures of the cage, food & water bowls & areas that your ferret will be roaming

Ferrets require interaction & stimulation time EVERYDAY, how much time will you have to play with the ferret? _____

Have you ferret-proofed your home? _____ 😊 Trust me, ONE ferret is like having a toddler. So, look for things from a 2-year-old's point of view & block 1" or larger holes in the kitchen and laundry areas, etc. 😊

Do you have appropriate ferret food? _____ If so, which food _____
If not, IT IS OKAY 😊 Ferrets are "picky"... we will send you home with a week's worth of food specifically for THAT ferret!

As with all pets, there are vet / medical bills, are you willing to pay \$100-\$500 (annually) for vet visits? _____
NOTE: Ferrets need to visit the vet at least once a year for distemper and rabies vaccinations.

Are you prepared to keep your ferrets for the span of their life, which could be up to 10-12 years of age – including ferrets that become sick and need medical attention or lifestyle changes? _____

ALMOST DONE 😊
