## FUZZY FERRET RESCUE ADOPTION AGREEMENT

I have answered the above questions truthfully and I am now ready to adopt! I promise to care for the ferret as described in the materials furnished to me. If I become unable to care for or can NOT afford medical care for the ferret, I agree to return the ferret(s) to Fuzzy Ferret Rescue to assure it finds good home, and/or gets the medical attention it needs. Initial here: \_\_\_\_\_

Furthermore, I understand that "Fuzzy Ferret Rescue" retains the right to periodically check on adopted ferrets' well being and living conditions. We also retain the right to rescue the ferret back from its adoptive owners if it is in any way: abused, neglected, ill or sickly, in poor living conditions, injured by other household pets or humans, or is left or kept outdoors. No Refund will be given. When and if this transpires, we will be accompanied by a representative of either; The SPCA, Animal Control, and/or a law enforcement official. Initial here: \_\_\_\_\_

As it is known, adoption fees are considered to be donations to pay for food, supplies, medical attention, shots and etc. while in our care. No profit is accrued from these fees and can NOT be refunded. All ferrets leaving the shelter, have been examined with a clean bill of health by the rescue's vet, and each ferret is up to date on shots & are disease free. In the event, the adopted ferret(s) become ill due to natural cause or disease within 7 days of adoption, with confirmation by

a qualified veterinarian(s) with ferret knowledge (exotics), that said illness is of natural occurrence and not from neglect, abuse, living conditions, inflicted injury, or other inhumane acts while in custody of new owners and their domain, a full refund will be given. Initial here: \_\_\_\_\_
